1. **Clay, wet** — Soaked, sieved, kneaded, raised on the wheel
2. **Four days drying** — Rush it and they crack in the kiln
3. **Fired at 800°** — Five hours, then half a day cooling
4. **Painted, packed** — Checked twice by the packing unit

### Commercials, plainly

The price is final. **No GST is added, and no reverse charge is payable by you** — Section 9(4) applies only to notified classes, currently real-estate promoters; our auditors confirm this wording. You raise a normal purchase order; we issue a numbered bill of supply.

### One price for everyone

We do not run discounts, and we do not quote one company a lower rate than another. Our margin is a trainee's stipend and a trainer's salary. The hamper costs slightly less than its three items bought separately, because packing one box takes less time than packing three orders. That is efficiency, not a discount.

### What a purchase is not

A gift purchase is procurement, not CSR, and it is **not eligible for 80G**. Any vendor telling you otherwise is setting your finance team up for a problem. We keep the two strictly apart.

### See one before you commit

A sample box is **₹450, credited in full against your order**, so if you go ahead it costs you nothing. We can drop one at your office this week. You are also welcome to visit the workshop on JLN Marg during office hours, and buyers placing bulk orders are encouraged to.
